PingOne Gateway configuration

Mitchell Lewars <mitchelllewars@pingidentity.com>  
Draft

Wed, May 17, 2023 at 12:45 PM

PingOne Gateway config:

User Types

User Types are sets of users in LDAP and the configuration PingOne uses to find users when they sign on.  
Fill out manually, or use provided default values based on the LDAP vendor. Use default values

User Type

Users

Select Password Authority

LDAP

Help me decide

☐ Enable password changes from PingOne

User Search LDAP Base DN

ou=users,ou=ent2,DC=NCCOE,DC=org

User Link Attributes

externalid

sAMAccountName

username

+ Add

☐ Enable migration of new users upon first authentication

Value seen in Radiant Logic:

ou=users,ou=ent2,DC=NCCOE,DC=org	
Modify Attribute	Add Attribute
